

NEUGART the company

Technology leader in the field of planetary servo gear-heads

1st in quality reputation, reliability track record

2nd in Market-penetration in Europe

Family owned since 75 years

about 200 employees, sale 26 Million Euro (about \$ 30 million)

1928 - founded by Karl Neugart in Furtwangen Germany – Black Forest region, Clocks, precision Gears and component for the Black Forrest Watch and Clock Industry

1943 - Relocation to Kippenheim - precision “custom gears for industrial applications

1967 - Introduction of the **first Planetary Gearhead product** line used with stepper motors, DC motors

1990 - Market Introduction in the USA through RACO International

1997 - USA Neugart USA LP subsidiary opens

Design / Development

Our Goal is to have the best balanced, streamlined design.

Neugart is using high level state of the art design technology and tools, including 3D- CAD

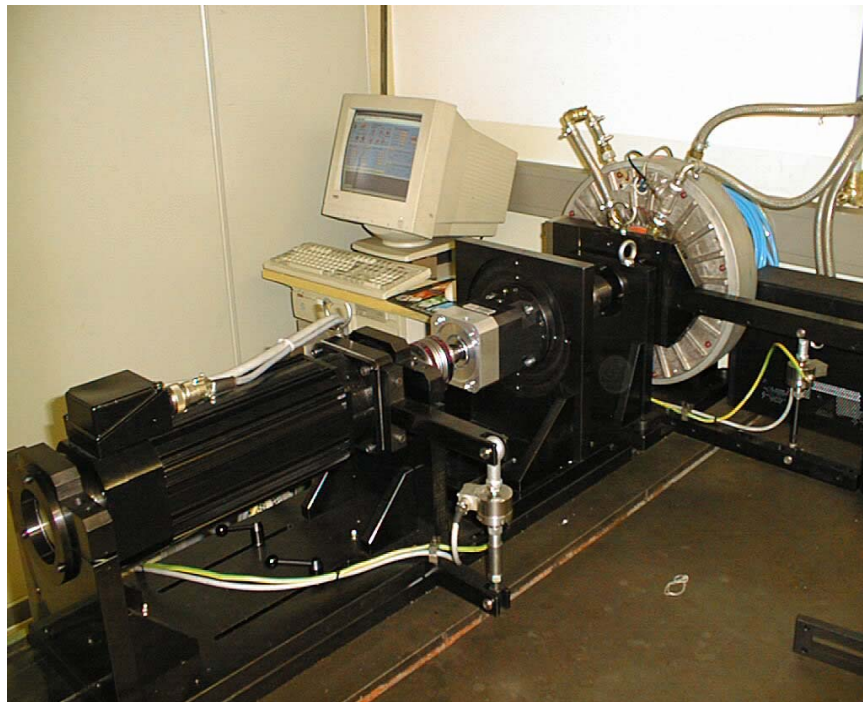

Modeling, extensive Finite Element optimization and special computer simulation and optimization software

**Neugart is Dedicated to
Design Excellence,**

Product Testing

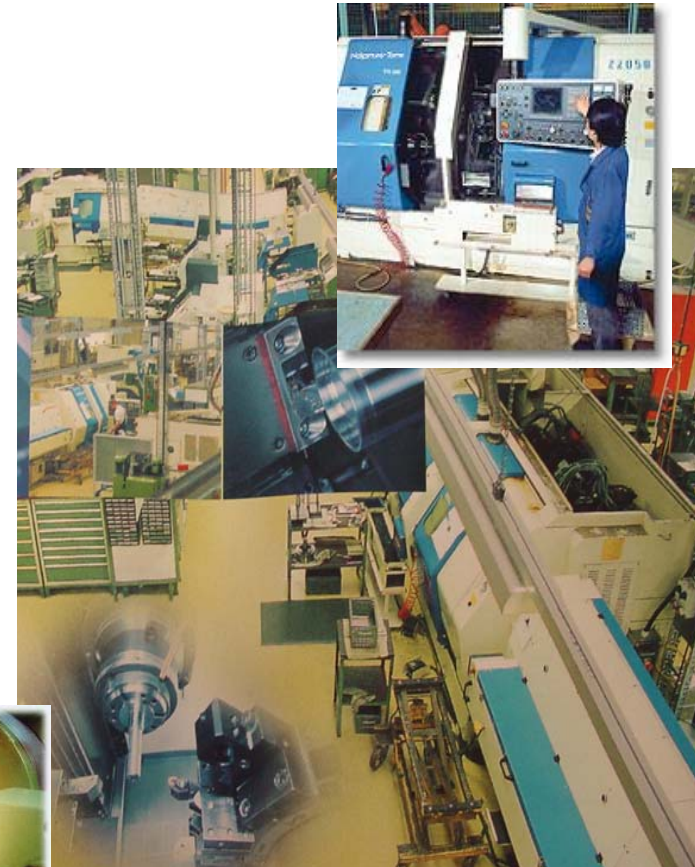

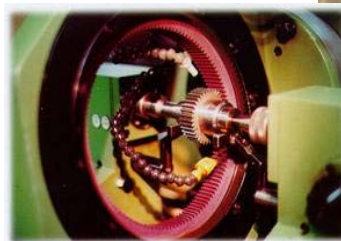

Manufacturing

Our Cell based Manufacturing is second to None, utilizing full CNC machine tools. We utilize precise and highly effective manufacturing methods of.

Neugart is pioneer in Honing of industrial gears

Neugart is Dedicated to Manufacturing Excellence

Quality

Neugart is utilizing the most reliable high tech quality control equipment and tools as well as QC methods.

ISO 9000 Certified

**Dedicated to Quality
Excellence,**

**Actuators- linear, rotary, electronic cams,
Automation- Material Handling, Processing,**

Motion Control- Positioning tables, X-Y systems

Robotics- gantry, articulated,

Packaging - bottling, wrapping, labeling,feeding,

**Liner Motion – Belt and ball screw, slides Machine tools-
loading unloading/ positioning Paper & Pulp- binder, cutter,
feeder...**

.....

**Textile Machinery, Printing, Indexing, Metering Pumps,
Medical Equipment, Pharmaceutical Industry, Food and**

Backing machinery, Plastic Machinery.....

Neugart supplies to virtually all industries
